Welding Technology student

"I started the job hunt about a month before graduating, and had three potential positions within a few weeks."

—Mike Skelly, graduate

The programs offered at Lake Washington Institute of Technology's School of Manufacturing are designed to provide students with hands-on skills and critical thinking in the manufacturing trades. Programs in the School of Manufacturing involve creating and turning raw materials into finished products, using current tools and technologies that support a variety of businesses in the manufacturing,

welding and machining technologies, and electronics sectors.

Average WA State Salary*:

Electronics:
\$68,555/yr.

Machining:
\$50,459/yr.

Welding:
\$47,865/yr.

LAKE WASHINGTON
INSTITUTE OF TECHNOLOGY

Programs

- **Electronics Technology**

Graduates of this program will have the skills needed to enter into the electronics manufacturing industry as assemblers, inspectors, managers and testers, or into any high-tech industry maintaining one of the many multi-million dollar machines and devices utilized in almost all high-tech fields today.

- **Machining Technology**

This flexible program features a hands-on learning environment and a fully equipped machine shop facility, with labs modeling the workplace. Students learn high-tech, professional skills that prepare them to work in a variety of industries, including marine, medical, and aerospace.

- **Welding Technology**

This program offers students the latest welding processes and techniques needed to begin a successful career in the high-paying, high-demand industry of welding. Students can gain the skills in one or more focus areas: aerospace, fabrication, pipe, and structural and plate welding.
